Join us as Dr Barry Jones AC revisits for the 21st century
his best-selling and widely influential book on
technology and the future of work.

Barry Jones has been a politician, government minister,
high school teacher, university lecturer and lawyer.
He is also the only person ever to have been elected as a
Fellow of all four of Australia's learned academies,
and was named by the National Trust among
Australia's 100 Living National Treasures.
He is a famous polymath and a lively thinker on
political matters.

This is sure to be a stimulating evening of
ideas and discussion,
so reserve your place as soon as possible to
avoid disappointment.
